Welcome on board!

Haas International is delighted to invite you on a "virtual tour", that will allow you to visit a variety of our sailing yachts, by simply moving the mouse over your computer screen.

Haas International is the first brokerage company to offer this large scale 360°, innovative feature, providing in depth, detailed presentation of our sailing yachts.

All the information is available on our improved internet site, including these panoramic pictures, which will provide a better impression and understanding of our yachts, in order to further assist our clients in choosing the yacht of their dreams.

Please do not hesitate to contact us for any question.

Enjoy your visit!

Best regards,

Manfred Haas,
Managing Director
