Price	910.000,-€	Rig	ketch

STARDUST is an elegant classic cruising ketch with incomparable comfort under sail or power at sea. This 20s is the most successful version that has ever been built at Jongert. Her hydraulic sail reefing systems and electrical winches provide easy sail handling by a couple. She features a deep and safe centre cockpit/pilothouse with comfortable seating, a large table and good protection.

Inside, STARDUST offers the comfort of a traditional luxury cruising yacht, with a warm, beautifully grained mahogany interior. In the center of the yacht, the elegant and light saloon, navigation and communication area and the galley which is on a lower level provide a large open space that is greatly appreciated by guests on board. A large, full width owner's suite in the aft part with the typical Jongert stern windows, and, forward of the saloon, two guest cabins – all with en suite bathrooms – assure a comfortable stay on board. She sleeps 6 to 8 guests in 3 cabins, plus crew.
